# Mission, Culture and Goals

## **Mission**

To lead a football program and staff while educating players on the game, lessons of life, and preparing student athletes for post-graduation success. Focusing on building a successful team culture through relationship building, recruitment and retention of student-athletes, campus engagement, community involvement, and the overall wellbeing of the program in alignment with the mission of the school as a whole.

## **Culture**

Our football team is driven by a culture of relationship building in which we seek to become better individuals on a daily basis who focus on earning respect and gaining the trust of our peers both on the field, in the building, and in our daily lives. Through mentor/mentee programs, player/coach relationships, and more, we expect to succeed because of the effort we put into our relationships.

## **Goals**

Our football team will always be focusing on the goals that are set for our program. While we look to achieve all of our goals, it is of the utmost importance that we always preach PROCESS oriented goals, rather than RESULT oriented goals. We will focus on the process to determine what is right and by following our process we will achieve the results we expect to obtain.

# Program Motto: WORK

WORK is our program motto

We always control how hard we WORK in everything we do

On the field, in the classroom, in the weight room, in our home life, in our relationships, in everything we do we focus on the WORK

Buying into the culture of who we are and who we strive to be on a daily basis

# Leadership Council

## Leadership Council

We are a player led football team. All successful coaches have leadership that trickles from the top down. It may start with the coaching staff but it ends with the players in the room and the understanding that it is not just one man's team, it is everyone's team and everyone is important. Because of this, we will not appoint captains based off of a vote or a popularity contest. Any upperclassmen is invited to join our leadership council in which we will host monthly meetings in order to help our student athletes grow into leaders as they look to gain the trust and respect of their teammates and coaches. During these leadership council meetings we will review leadership theories, styles, and go over situations and goals of our football team. Before the season, our coaches will then appoint 4 leaders to be named "Captain" only by title, as we will have created many more leaders than just the 4 captains who are chosen. This is an important piece to our culture as we excel in teaching leadership to all of our players.

# Offensive, Defensive and Special Teams Philosophies

## Offensive Philosophy

11 Personnel Spread Option

Physical rushing attack, explosive passing attack, plus one principles

22 Personnel Heavy Package

Simple but creative for 15-16-17 year olds

## Defensive Philosophy

3-4 odd front blitz/attack

Formation Coverage Checks / Front Movements

Simple but creative for 15-16-17 year olds

## Special Teams Philosophy

Sound and exciting

Create big plays on special teams, invest in guys who buy in

Simple but creative for 15-16-17 year olds

# Expectations

## **Absences/Tardiness**

Communication is key!

We expect players on time and present at team functions

Please communicate with position coach if adjustments are needed

## **Playing Time**

Best players will play

We instill our culture of WORK where we work for our playing time

It is up to players, not parents, to connect with their coaches on playing time

## **Communication**

Coach Beeskow will send out weekly updates

Team app and email list will be sent out weekly

Updates on website, social media, etc
